

Dear Doctor,

Thank you in advance for your assistance in completing the enclosed Physician Move-in Orders on behalf of your patient. Attach a signed current Medication list. Include any OTC medications in use. OTC medications require a Doctor's order. **Sign and return to Birchwood Cottages prior to move-in.**

Sign and return the enclosed Birchwood Cottages Standing Orders, prior to move-in.

Please include History & Physical for the following information:

- Any significant medical history and full systems review
- If your patient has a history of aggressive behavior, please refer patient for psychiatric consult to assure the person can be cared for in an Assisted Living environment
- As you know, psychotropic medications have a "black box warning" by the FDA because they have been found to increase mortality rate in seniors. Because of this, if your patient is using any psychotropic medications, we request a rationale and supporting diagnosis to cover those with Schizophrenia, etc.

This information will be used at Birchwood Cottages to develop and deliver individualized care to your patient in an Assisted Living setting, serving people who need specialized dementia care and/or enhanced care. We provide RN supervision and case management including on-going assessments, medication supervision & administration, and individualized care plans. We have 24/7 on-site, trained caregivers. We do not provide 24-hour licensed nursing care.

Thank you for your time and assistance.
